

2

1

1. Material must be 6061-T6 aluminium
2. Side cuts must allow provided beams to sit within a 6 in diameter profile
3. Side holes must allow for bolts to thread into provided beams
If needed a #29 drill can be used to widen holes
4. Center cutout must provide a slide fit for the solid motor housing
It must also NOT allow the aft closure to pass
5. Break all edges
